

Mayor and Council Communication

DATE: 06/09/26

M&C FILE NUMBER: M&C 26-0453

LOG NAME: 13NOTICE OF INTENTION-SERIES 2026 CERTIFICATES OF OBLIGATION

SUBJECT

(ALL) Adopt Ordinance Directing Publication and Posting of Notice of Intention to Issue Combination Tax and Revenue Certificates of Obligation in an Amount Up to \$104,000,000.00 for Improvements to Various City Streets, Facilities, and Infrastructure, and Expressing Intent to Reimburse Initial Project Expenditures from Proceeds if Debt Is Issued

RECOMMENDATION:

It is recommended that the City Council adopt the attached ordinance, which directs publication and posting of notice of the City's intention to issue Combination Tax and Revenue Certificates of Obligation, Series 2026, in an amount up to \$104,000,000.00 for the purpose of paying all or a portion of the City's contractual obligations incurred in connection with the (i) construction and improvement of streets, roads, bridges and parking facilities, including related drainage, signalization, landscaping, sidewalks, lighting, utility relocation and replacement, bridges, signage and streetscape improvements; (ii) construction, improvement and equipment of municipal parks and recreation facilities that are generally accessible to the public and are part of the City's park system; (iii) construction, improvement and equipment of administrative office and departmental space for governmental functions of the City; (iv) construction, improvement and equipment of public safety facilities, including municipal court and police facilities; and (v) payment of legal, fiscal and engineering fees in connection with such projects; approves the form of notice; directs notice to be published and posted in accordance with state law; and expresses official intent for the City to reimburse itself from proceeds of the debt sale, if debt is issued, for project-related expenditures incurred prior to issuance.

DISCUSSION:

The purpose of this Mayor and Council Communication (M&C) is to take preliminary actions in preparation for the authorization and issuance of Certificates of Obligation (C.O.s) for the purpose of paying all or a portion of the City's contractual obligations incurred in connection with the (i) construction and improvement of streets, roads, bridges and parking facilities, including related drainage, signalization, landscaping, sidewalks, lighting, utility relocation and replacement, bridges, signage and streetscape improvements; (ii) construction, improvement and equipment of municipal parks and recreation facilities that are generally accessible to the public and are part of the City's park system; (iii) construction, improvement and equipment of administrative office and departmental space for governmental functions of the City (iv) construction, improvement and equipment of public safety facilities, including municipal court and police facilities; and (v) payment of legal, fiscal and engineering fees in connection with such projects.

Under state law the City Council has the authority to issue C.O.s without explicit prior voter approval, provided that notice must be published and the public provided an opportunity to petition for an election to be held. In addition, the City has established financial policies governing the issuance of C.O.s that limit their use to finance public improvements in special circumstances and only after determining the City's ability to assume additional debt. An example of special circumstances is a situation, such as the one posed here, where it would be more economical to issue C.O.s rather than revenue bonds.

The projects qualify for C.O. financing under both state law and City policy.

Staff is recommending issuance of combination tax and revenue C.O.s with the City's taxing authority and a limited pledge of surplus water and sewer revenues (up to \$1,000.00). Making a limited pledge of surplus water and sewer revenues meets state law provisions that require identification of a revenue source when selling the C.O.s for cash to then fund the project, which the City anticipates doing here. Pledging the City's tax authority will allow the debt financing to achieve a more favorable interest rate.

Upon City Council approval, the City Manager shall publish the initial Notice of Intention on June 12, 2026 and will post the notice on the City's website at the same time. The second Notice of Intention will be published on the same day of the week following the first notice.

An ordinance to authorize issuance and delegate authority for the sale of the C.O.s is scheduled to be brought back for Council consideration on August 11, 2026. The C.O.s are intended to be sold on a competitive basis with closing and delivery of the C.O. funds anticipated to occur in the late summer/early fall timeframe.

In addition to setting the form of notice and directing its publication, adoption of the attached ordinance would also serve as the City Council's adoption of a formal statement of intent to reimburse preliminary costs for the projects out of the issuance from the certificates. This aspect of the ordinance does not obligate the City to sell C.O.s, but preserves the ability for the City to reimburse itself from tax-exempt debt proceeds if it does. This mechanism allows projects to continue forward utilizing other funds until debt proceeds are available. Any expenses incurred against an initial funding source would be repaid out of debt proceeds following issuance, sale, and receipt of proceeds.

This serves ALL COUNCIL DISTRICTS.

A Form 1295 is not required because: This M&C does not request approval of a contract with a business entity.

FISCAL INFORMATION / CERTIFICATION:

The Director of Finance certifies that approval of this recommendation will have no material effect on City funds.
