As used in this Agreement, “providing services” includes having services provided by any method or means by which the City may extend municipal services to any other area of the City, including the City's infrastructure extension policies and developer or property owner participation in accordance with applicable city ordinances, rules, regulations, and policies.

In the event the City acquires any other parks, facilities, or buildings necessary for City services within the Property, the appropriate City department will provide maintenance and operations of the same.

If a property owner desires to connect an existing structure to the City water and sewer system, then the owner may request a connection and receive up to 200 linear feet of water and sewer extension at the City's cost for each occupied lot or tract in accordance with the City's "Policy for the Installation of Community Facilities" and applicable law. Once connected to the City's water and sanitary sewer mains, the water and sanitary sewage service will be provided by the City at rates established by City ordinances for such service.

 - c. It is understood and agreed that the City is not required to provide a service that is not included in this Agreement.
 - d. Owner understands and acknowledges that the City departments listed above may change names or be re-organized by the City Manager. Any reference to a specific department also includes any subsequent City department that will provide the same or similar services.

The parties acknowledge that they are of equal bargaining power and that each of them was represented by legal counsel in the negotiation
