

Project Location Map

Project location is shown below.

Arcadia Trail Connection

Located 2 miles east of I-35W and 1-1/2 miles north of I-820 in north Fort Worth, the Arcadia Trail Connection project will eliminate a 1/4 mile length gap in the 8-mile Arcadia Trail Park trail system. The project will also provide a low-water bridge crossing over Whites Branch creek and connect to 15 miles of trails and parks in Watauga and Haltom City.
