DISCUSSION:

The land rights in the subject property are needed for the reconstruction and widening of WJ Boaz Road from Boat Club Road to Elkins School Road (City Project No. 103299). This project consists of widening and reconstructing approximately 1.1 miles of existing two-lane asphalt roadway to a four-lane divided concrete thoroughfare. The roadway improvements include pavement reconstruction with curb and gutter, drainage improvements, street lights, shared used paths and reconstruction of the existing roundabout at Bowman Roberts Road.

An independent appraisal established the property's fair market value and the property owner has agreed to the amount of \$180,000.00 as total compensation for the needed property interests as shown below. The City of Fort Worth will pay estimated closing costs in an amount up to \$2,000.00.

Upon City Council approval, staff will proceed with acquiring the needed right-of-way and drainage easement interests.
