

# Zoning Staff Report

Date: June 09, 2026

Case Number: ZC-25-185

Council District: 2

## Zoning Map Amendment

**Case Manager:** Lynn Jordan  
**Owner:** MM 28 Deen  
**Applicant:** Joe Passanisi  
**Site Location:** 3800 Deen Road  
**Acreage:** 4.00 ac

### Request

**Proposed Use:** Permanent Concrete Batch Plant  
**Request:** To: “K” Heavy Industrial with a Conditional Use Permit (CUP) for a Permanent Concrete Batch Plant; site plan included

### Recommendation

**Land Use Compatibility:** Requested change is **compatible**.  
**Comprehensive Plan Map Consistency:** NA  
**Comprehensive Plan Policy Consistency:** Requested change is **consistent**.  
**Staff Recommendation:** **Approval with a 5 year time limit**  
**Zoning Commission Recommendation:** **Approval As Amended for enhanced landscaping along Deen Road and southern property line as depicted on revised site plan with a (5) five year time limit by a vote of 10-0**

### Project Description and Background

The case was continue previous meeting to allow more time for staff to review the revised site plan. The property is in the Far North Planning Sector, just west of I-35W and Mark IV Parkway. The property is zoned “K” Heavy Industrial and adjacent to the Burlington Northern Railroad line. The subject property is approximately 4.00 acres out of a larger tract of land. The applicant is proposing to use the railroad spur for loading and off-loading of raw materials.

The proposal includes a concrete batch plant, a concrete recycling area, stockpiles of rock and sand, and a truck staging area.

The use is considered a “Concrete Batch Plant” use as defined in the City’s Zoning Ordinance as follows:

A permanent batch plant, asphalt or concrete, shall be limited to districts designated “CUP” in the use tables in Chapter 4, Articles 8 and 12.

Permanent concrete batch plants are not permitted in any zoning district by right.

**Conditional Use Permit Request**

The applicant is requesting to add a CUP for a permanent concrete batch plant. According to Sec. 4.801 of the Zoning Ordinance, an application for a conditional use permit may be made for any land use not permitted in any nonresidential zoning district. Because permanent concrete batch plant is not permitted in any zoning district, the applicant is requesting a CUP to allow the use in the K zoning district.

**Development Waivers Request**

None requested

**Applicants request**

A BATCH PLANT REQUIRES A CUP.  
OUR PLAN IS FOR A PERMENT BATCH PLANT  
TO SERVICED THE AREA AND HAVE RAIL ACCESS.

**Surrounding Zoning and Land Uses**

- North “A-5” One-Family & “ER” Neighborhood Commercial Restricted / single-family & vacant lot
- East “K” Heavy Industrial / industrial
- South “K” Heavy Industrial / industrial
- West “A-5” One-Family across Deen Road / single-family

**Recent Zoning History**

ZC-22-221- “CUP60” Conditional Use Permit to allow petroleum storage facility in “K” Heavy Industrial, approved 2/2023. Subject property to the east of I-35W.

## Development Impact Analysis

### Land Use Compatibility

---

The properties surrounding the site to the north, south and east are zoned for industrial use. Properties further west are zoned for single-family use but are separated from the site by Deen Road. Current structures on site are occupied by an industrial user and not associated with the proposed use. The proposed permanent concrete batch plant **is compatible** with the surrounding industrial properties.

### Comprehensive Plan Consistency – Northeast Planning Sector

---

The 2023 Comprehensive Plan currently designates the subject site as Meacham Industrial Growth Center on the Future Land Use Map. Concrete batch plants, while considered a medium/heavy industrial use, are permitted in any industrial district with a Conditional Use Permit. The conditional use permit provides the opportunity to consider this request based upon its location to surrounding property, site layout, and mitigating measures.

The proposal for a new concrete batch plant on property zoned industrial and surrounded by industrial use and aligns with the following goals of the Comprehensive Plan:

- An industrial growth center will primarily consist of industrial and commercial uses, with a high concentration of jobs, mostly industrial in nature. Other related and supporting uses include office space and services. Residential uses are generally discouraged within industrial growth centers. Criteria for designation include: • A high concentration of employees — 10,000+ employees per square mile, and • The location nearby one or more major transportation facilities, such as an airport, railroad, highway, public transit station, and/or arterial roadway
- Promote appropriate infill development of vacant lots, old commercial centers (greyfields), and contaminated sites (brownfields) within developed areas, particularly in the central city.

The proposed zoning **is consistent** with the Comprehensive Plan.

### Site Plan Comments

---

#### Zoning and Land Use

The site plan as submitted is not in general compliance with the Zoning Ordinance regulations. If approved, these comments would need to be addressed prior to ordinance adoption.

- ~~1. Provide a signature block with date in the lower right hand corner.~~
- ~~2. Provide a heavy bold line around the subject property.~~
- ~~3. Provide a vicinity map.~~
- ~~4. In the notes section enlarge the font so it is readable at a reduced size.~~
- ~~5. Will there be any lighting on site? Needs to be identified.~~
- ~~6. Will there be employees on site if so, where will they park needs to be identified on the site plan.~~
- ~~7. Will there be a security job shack for this project? Needs to be noted on the site plan including square footage and height.~~
- ~~8. In the notes section change the height of the piles to approximately 120 ft.~~
9. Is there a dedicated drive as you enter the site to the staging area, please identify and provide width.

10. Enhanced landscaping required along Den Road and southern property line.

*(Comments made by Platting (Subdivision Ordinance), Transportation/Public Works, Fire, Park & Recreation, and Water Department staff cannot be waived through the Zoning Commission and City Council. Approval of the zoning site plan does not constitute the acceptance of conditions.)*

### **Stormwater**

1. Site requires an accepted drainage study prior to platting, IPRC, grading permit, and building permit issuance. No FEMA or CFRA on site. Site has potential high water. There is public storm infrastructure located to the south on Deen Rd per TPW Plan Set, W-1024.

### **Fire**

1. Adequate access is provided by existing public streets.  
Building hose lay is provided within the maximum 150'.  
Section 503.1.1 Buildings and Facilities

They hydrant across the street on Chenault St provides hydrant hose lay to the building within the maximum of 500'.

Sections 507.5.1 (2) and (3)

Fire has no concerns for this application.

General information:

Failure to recognize violations of the fire code by the fire code official does not waive the requirement of meeting minimum requirements of the fire code in the future.

It is the applicant's and the owner's responsibility to meet all minimum fire code requirements at all times.

The City of Fort Worth has adopted the 2021 International Fire Code as its current fire code at the time of this review. The City of Fort Worth has also adopted Amendments #25388-03-2022.
