DISCUSSION:

This Mayor and Council Communication (M&C) is to authorize a construction contract for Year 1 Neighborhood Streets Improvements project associated with the 2022 Bond Program. For 2022 Bond Year 1-Contract 5 project, this includes water, sanitary sewer, stormdrain and street paving improvements on approximately 2.29 lane miles, on the following streets:

Street	From	To	Scope
Ash Crescent Street	E. Vickery Boulevard	Avenue E / Pavement Change	Water/Paving/Stormwater
Avenue B	S. Riverside Drive	Ash Crescent Street	Water/Paving
Avenue C	Ash Crescent Street	Martin Luther King Freeway	Water/ Paving
Avenue D	Ash Crescent Street	Martin Luther King Freeway	Water/Paving
Elmwood Avenue	Belzise Terrace	Martin Luther King Freeway	Water /Paving
Uvalde Street	E. Richmond Avenue	Martin Luther King Freeway	Water/Sewer/Paving
Belzise Terrace*	Avenue C	Avenue D	Water
Ann Street*	Avenue C	Avenue D	Water

*Due to close proximity to the 2022 Bond Year 1 Contract 5 project streets above, the Water Department has requested for water main extensions on Belize Terrace and Ann Street in order to loop the water system and provide increased efficiency. Asphalt paving rehabilitation will be conducted on both roadways subsequent to water main installation.

The project was advertised for bid on September 1, 2022 and September 8, 2022 in the *Fort Worth Star-Telegram*. On September 29, 2022, the following bids were received:

Bidder	Base Bid (Concrete Paving)	Alternate A (Asphalt paving)	Time of Completion
McClendon Construction Co., Inc.	\$5,401,926.50	\$5,438,810.40	400 Calendar Days
Stabile & Winn, Inc.	\$6,009,110.25	\$5,707,260.25	
Jackson Construction, Ltd.	\$7,113,689.00	\$6,550,944.00	

In an attempt to secure alternate bids, staff advertised the project with Base bid as concrete bid to reconstruct existing streets included in the Bond with concrete travel lanes, and Alternative A as Rehabilitation of existing roadway with new asphalt and replacement of damaged curb and gutter. Staff recommends award of the contract for Base Bid (concrete Option). Concrete paving typically has a twenty year life span while asphalt paving has a ten years span. In addition, the maintenance cost of concrete pavement is less than asphalt pavement.

The Transportation & Public Works Department's share on this contract is \$2,894,497.00 (Paving: \$2,766,791.50; Stormwater: \$127,705.50). The paving funds for this project are included in the 2022 Bond Program. The Water Department's share on this contract is \$2,507,429.50 and will be available in the Water & Sewer Capital Projects Fund for the project (City Project No. 102931). In addition to the contract amount, \$625,189.50 (Water: \$243,281.50, Sewer: \$34,570.00 Paving: \$332,014.50, Stormwater: \$15,323.50) is required for project management, material testing and inspection and \$286,958.00 (Water: \$114,896.00, Sewer: \$20,951.00, Paving: \$138,340.00, Stormwater: \$12,771.00) is provided for project contingencies.

This project will have no impact on the Transportation & Public Works' or on the Water Departments' operating budgets when completed. The sanitary sewer component of this project is part of the Water Department's Sanitary Sewer Overflow Initiative Program. Approximately 3,043 linear feet of cast iron water pipe will be removed and replaced as part of this project.

The action in this M&C will amend TPW's contribution to the Fiscal Years 2023-2027 Capital Improvement Program as follows:
