INTEROFFICE MEMO

Date: July 14, 2022
To: Dana Burghdoff, Assistant City Manager
From: Chris Harder, P.E., Water Director
Subject: EMERGENCY REPAIRS – SUMMER 2022 HEAT WAVE

In June, 2022, unseasonably high temperatures, exceeding 100°F on many days, began in North Texas. So far, the month of July has seen nearly every day exceeding 100°F. This sustained heat has caused 89 water main breaks in June and thus far 82 for the month of July. The water main breaks are disrupting the water distribution services we provide. Water is critical to the citizens' health and well-being during a heat wave such as this. Water Field Operations has been adequately keeping up with the main breaks, but due to the volume we're now seeing, additional repair support is required. We have reached out to several of the contractors who assisted us during the deep freezes of 2020 and 2021 to be on-call for emergency repairs.

This memo is submitted to inform the CMO that, pursuant to the emergency authority found in City Code Chapter 2, Article I, Section 2-9 of the City's Code of Ordinances the Water Department intends to engage with the following contractors to perform main break repairs, street repaving or other related tasks as needed:

- Jackson Construction, LTD
- Tejas Commercial Construction, LLC
- Conatser Construction TX, LP
- Reyes Group, LTD

Each contract will be in an amount up to \$1,000,000 and work will be billed against this amount on a task order basis. The contractors will reconcile with the Water Department their expenditures and a follow-up M&C will be presented to the City Council for ratification of the costs.

Waiting to bid and award a contract to perform this work is not the best interest of the health and safety of the City of Fort Worth. In addition to the citations, above, Section 252.022 of the Local Government Code exempts from normal bidding requirements expenditures that are necessary to preserve or protect public health or safety of the municipality's residents and procurements necessary because of unforeseen damage to public machinery, equipment, or property. Water main breaks can occur at any point within the system and are thus, unforeseen, regardless of the anticipation that they may occur.
