**REVISED PRELIMINARY DESIGN**

Corten steel letters, 10 feet in height, line up to spell out “Fort Worth” with Acme Brick in-ground pavers refers to the “Old Road to the West”, inter-planted with TxDOT native wildflower and grasses seed mixtures. The letters will be lit at night. *[Note: Artists’ Revised Preliminary Design rendering indicates a residential area north of the site in the background.]*

Example of TxDOT native grasses seed mixture:

**'Van Horn' Green sprangletop**  
*Leptochloa dubia*

Drought tolerant perennial grass to 3' tall, provides quick ground cover and slower growth over time. Also provides nesting and cover for birds and small mammals.

Cold: to -13F  
Soil: well drained  
Light: full sun  
Water: moderate to low

**Sideoats grama**  
*Bouteloua curtipendula*

Texas State Grass, Perennial bunchgrass, to 2' high, and 1 1/2" wide. Blooms from April to October. Bluish green foliage dries to tan in fall. Rejuvenate by cutting after dried in fall.

Cold: to 0F  
Soil: well drained  
Light: full sun  
Water: moderate to low

**Atascosa Texas grama**  
*Bouteloua rigidiseta* Steud.

Perennial, bunching, warm weather native, reaching 5 to 12 inches tall. Has attractive spreading bell-shaped seeds that are purplish on the outside, drying to wheat color. Attracts birds and butterflies.

Cold: to 0F  
Soil: well drained, sandy, clay  
Light: full sun  
Water: moderate to low

**Hairy grama**  
*Bouteloua hirsuta*

Perennial, warm weather native, reaching to 1' tall. Provides nesting materials and structure for native bees.

Cold: to -38F  
Soil: well drained, sandy, dry  
Light: part shade  
Water: moderate

**Shortspike windmill grass**  
*Chloris X subdoli-chostachya*

Perennial, clumping, warm weather native, reaching from 1' to 3' tall.

Cold: to 0F  
Soil: dry, moist  
Light: sun  
Water: moderate

**Little bluestem**  
*Schizachyrium scoparium*

Perennial bunchgrass to 2' tall, and less than 1" wide. Leaf blades and dark blue-green, fall flower stems are reddish. Entire plant turns to rust color in fall.

Cold: to -15F  
Soil: well drained  
Light: full sun  
Water: moderate to low

**Example of TxDOT wild flowers seed mixture:**

<p><b>Texas bluebonnet, Bluebonnet, Texas lupine, Buffalo clover, Wolf-flower</b> <i>Lupinus texensis</i></p>			<p>Erect to spreading, bushy annual with softly hairy stems and mid-green leaves. In summer, deep blue to blue-purple flowers are borne. Has a maximum height of 10-12" and spread of 9".</p>	<p>Cold: to -10F Soil: well drained, sandy Light: full sun Water: moderate</p>	<p>1</p> 
<p><b>Indian blanket</b> <i>Gaillardia pulchella</i></p>			<p>Perennial. Red or orange flower petals with yellow tips, or yellow petals.</p>	<p>Cold: to -20F Soil: well drained Light: sun Water: moderate</p>	<p>2</p> 
<p><b>Missouri primrose</b> <i>Oenothera macrocarpa</i></p>			<p>Hardy perennial. Heavy blooms with large yellow four petalled flowers. Usually grows 8-10 in. high, with flowers blooming 3-4 in. wide.</p>	<p>Cold: to -10F Soil: well drained, dry Light: full sun Water: low</p>	<p>1</p> 
<p><b>Prairie verbena</b> <i>Verbena bipinnatifida</i></p>			<p>Low growing perennial. Purple to magenta flowers clusters in summer.</p>	<p>Cold: to 15F Soil: well drained Light: sun Water: low</p>	<p>2</p> 
<p><b>Purple horsemint, Lemon beebalm, Lemon horsemint</b> <i>Monarda citriodora</i></p>			<p>Aromatic winter annual with unusual, tuft-like, lavender to pink, whorled flower heads. Can grow up to 2' in height.</p>	<p>Cold: to 10F Soil: moderately fertile, humus-rich, moist, well-drained Light: full sun to dappled shade Water: moderate</p>	<p>2</p> 
<p><b>Pink evening primrose</b> <i>Oenothera speciosa</i></p>			<p>Low growing herbaceous perennial, to 1-2' high. Multiple colors of flowers, spring through summer. Attracts birds, bees, and butterflies.</p>	<p>Cold: to -10F Soil: well drained Light: full sun (some partial shade) Water: moderate</p>	<p>2</p>
