DISCUSSION:

The purpose of this Mayor and Council Communication (M&C) is to authorize the execution of an Interlocal Agreement (ILA) with Tarrant County in the amount up to \$1,000,000.00 and an interlocal agreement with the City of Everman in the amount up to \$263,655.00 to receive reimbursement funding from Tarrant County and from the City of Everman for the Everman Parkway Safe Streets project (City Project No. 106479). Everman Parkway generally is a border between the cities of Fort Worth and Everman.

The project aims to provide pedestrian and bicycle amenities to connect four Everman ISD schools located in Fort Worth and Everman and requires complex design elements. Construction will include pavement, box culverts, shared-use paths, streetlights, and other transportation elements. The project will install bike lanes and shared-use paths along the routes to the four schools and include intersection treatments such as enhanced crosswalks.

The schools do not currently have a safe path for students to bike to school. The inconsistent sidewalks and ditches throughout the corridor make it potentially unsafe for young pedestrians and bicyclists.

Tarrant County will reimburse the City up to \$500,000.00 in design costs and up to \$500,000.00 in construction costs, with soft costs coming from other funding sources. The rest of the project will be funded through an Advanced Funding Agreement from Texas Department of Transportation. Fort Worth's only funding obligation thus far will be for soft costs associated with the design and inspection of the project.

The City of Everman will reimburse the City in the amount of \$263,655.00 in construction costs, plus any construction cost overruns within the City of Everman. The rest of the project will be funded through an Advanced Funding Agreement from the Texas Department of Transportation. Fort Worth's only funding obligation thus far will be for \$232,500.00 for design and environmental clearance, plus any construction cost overruns within the City of Fort Worth.

The City of Everman will, in addition, provide transportation development credits to the City of Fort Worth valued at an amount up to \$450,000.00 as follows: 225,000 in transportation development credits at the commencement of installation and construction, and the remaining transportation development credits at completion of installation and construction.

Funding for this project was not included in the Fiscal Years (FY) 2026-2030 Capital Improvement Program as the project and funding sources were not known at the time of the development of the Capital Improvement Program. The action in this M&C will amend the FY2026-2030 Capital Improvement Program as approved in connection with Ordinance 27979-09-2025.

Funding will be available in the Intergovernmental Contribution Fund and in the Grants Capital Project Other Fund for the Transportation and Public Works Department for the Everman Safe Streets project.
